### Hello to Rodney Woosnam

Asset Manager

This month we welcome Rodney Woosnam to head up the Glenview maintenance team upon the retirement of Sam Walter.

Rodney came to Australia from Vancouver Canada in 2017 to work in Melbourne. Fortunately, he now calls Hobart home.

Rodney has extensive experience in asset and facilities management. His expertise in property asset maintenance, compliance, and capital project management was honed through the construction and management of three 650-bed aged care centers in Vancouver.

Overseeing those facilities gave him invaluable hands-on experience in ensuring operational efficiency, safety compliance, and a high standard of care for residents.

Rodney will have multiple high profile projects to oversee for Glenview, especially if our grant application for capital works at Windsor is successful.

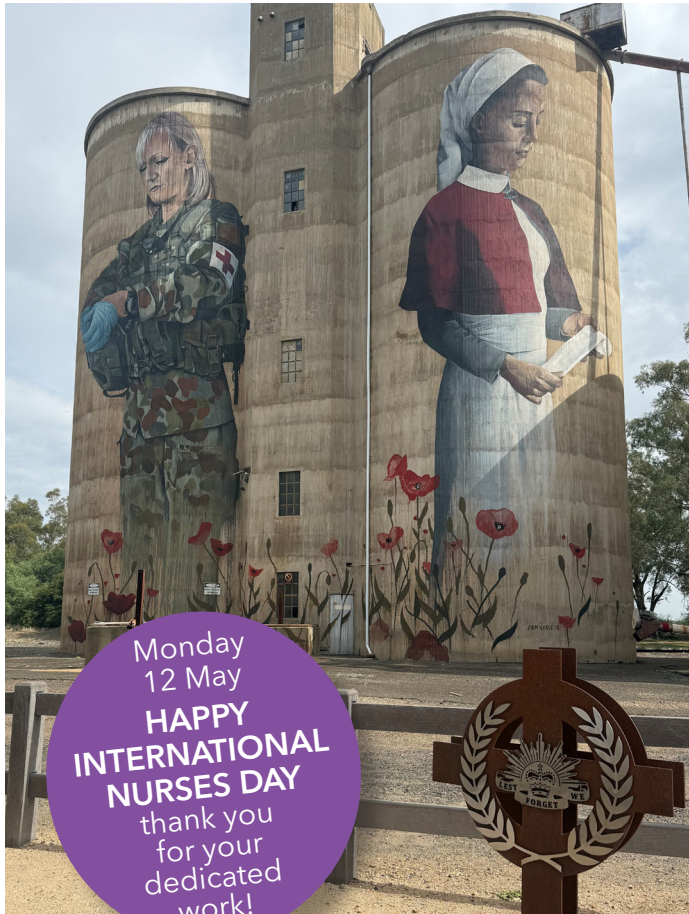

The day to day responsibilities of the maintenance team is extensive and includes room and furniture renovations, irrigation, fire safety and responding to resident requests. As well as overseeing plumbing, flooring, electrical trades and keeping the grounds tidy!

Rodney's hobbies include: travel, exercise, multi-media, technology and cooking.

Welcome to Glenview, Rodney!

# Lest We Forget: in honour of the ANZAC nurses

On ANZAC Day, we pause to remember not only the soldiers who served but also the brave nurses who stood by them – the women who served with compassion, resilience, and quiet courage in the face of unimaginable hardship.

We honour their legacy – their care, their bravery, and their unbreakable spirit. This story is an essential chapter in the history of our nation and a reminder of the many faces of service.

In a recent trip to Victoria, I drove through the small town of Devenish. The murals on the silos took my breath away and certainly made me pause to reflect.

Thank you to Miranda and Janet for coming in to support the Anzac Day service at Windsor and Korongee, an important time for our residents to be supported to pause and reflect.

Lest we forget.

## Voluntary Enforceable Undertaking (VEU) progress

**“We are well on our way to the end of the VEU which is a milestone in itself.”**

Work continues at Windsor with further consultation undertaken on Behaviour Support Plans for Residents.

The High Risk Resident Meeting continues to occur weekly and the clinical team will be evaluating this process in May.

Further education is planned for staff on managing changing behaviours, including education with Dementia Training Australia for the staff working in Waratah.

We have had a recent external audit from Standards Wise Australia – thank you to everyone who participated in this audit and gave feedback to the independent auditors Nicole and Bette.

We are awaiting the final report but initial feedback has been very positive and the team will see a lot of great work underway across both sites.

If you have any questions please don't hesitate to reach out to the Senior Leadership Team by email to [admin@glenview.org.au](mailto:admin@glenview.org.au)
